I know it gets used by food vans, but if they were placed strategically, it would enhance all uses. It is so hot there during the day. If it was planted out more it would enhance use - from gym users, walkers with and without dogs, some shady seating...beautiful space for events then. 2020-02-19 21:34:19 +0800 <b>vanessam_81</b>	<p>I'm not sure the gym needs to be bulldozed, as structurally it looks like a sound building. However, it does need to be brought into the 21st century. In addition, there is a fantastic opportunity to bring life into dead spaces down the McMillan Park side of the building with cafe's that have outdoor seating that spill out onto the park. With the young families that reside in Vic Park or even for dog owners, this is a no brainer - coffee, park and a playground....#winning</p> <p>Address: Leisurelife, Kent St., Perth, Western Australia 6101, Australia</p> <p><a href="http://yourthoughts.victoriapark.wa.gov.au/mpm/maps/macmillan-precinct-mapping?reporting=true#marker-61434">http://yourthoughts.victoriapark.wa.gov.au/mpm/maps/macmillan-precinct-mapping?reporting=true#marker-61434</a></p>

This means the outdoor environment is relatively unattractive (even with the 40km/h speed limit). How about turning some of the commercial presence inward to the precinct, to encourage circulation and foot traffic across the precinct.</p> <p>Address: 693 Albany Highway, East Victoria Park Western Australia 6101, Australia</p> <p><a href="http://yourthoughts.victoriapark.wa.gov.au/mpm/maps/macmillan-precinct-mapping?reporting=true#marker-61461">http://yourthoughts.victoriapark.wa.gov.au/mpm/maps/macmillan-precinct-mapping?reporting=true#marker-61461</a></p>

Although I like the idea of prioritising foot and cycle traffic, you probably can't eliminate public parking in the area if you want to keep usage high. The Gym could be modernised with new equipment and maybe a slight expansion. Along with the changing areas and toilet facilities. The Multi Purpose areas are good but could use improvement. This area could easily be redeveloped into a 2 storey multi use venue able to be hired out to help cover costs and improve patronage in regular use. An investment now could increase land value as it is close to a brand new leisure centre that has new facilities and a draw to keep them there. Maybe a small bar in the area as people on social sports teams may stop by for one on the way home or a new cafe that is on the outside so people are able to stop by from a shopping trip or the weekend and enjoy a coffee or a breakfast in the view of the park or in view of the new playground. Combined with the food trucks that frequent the area and if the council increases patrols to the area this could be a massive draw to the area especially if you make disabled friendly playgrounds and areas where there is room for parents to help their children along bridges or down slides. Or even a play street with kid sized roundabouts, stop signs, parking bays for bikes and trikes and merging areas, you could give kids a learning experience while letting parents have a nice coffee and breakfast while the kids play and learn Address: 19 Sussex Street, East Victoria Park Western Australia 6101, Australia</p> <p><a href="http://yourthoughts.victoriapark.wa.gov.au/mpm/maps/macmillan-precinct-mapping?reporting=true#marker-61554">http://yourthoughts.victoriapark.wa.gov.au/mpm/maps/macmillan-precinct-mapping?reporting=true#marker-61554</a></p>

They are outdated and have musty, smelly interiors. That's my opinion - the gym may be a different story for some recipients however it is hanging on its last legs and tearing it down may improve the area's vibrations. A demolish-/revamp or rebuild with perhaps the development of a safe rooftop recreation, chill-out, yet professional garden 'ohm' zone area with a link to the Sunday markets and the Park Centre (???) would be a nice addition to the space. Workshops or seminars or meetings could be run from this space too private or public - a contemporary on-trend design, multi-functional space indoors and out would serve well here. It all depends on the viability of creating such a space. My input remains strong here: in with the new I say.</p> <p>Address: 3 Sussex Street, East Victoria Park Western Australia 6101, Australia</p> <p><a href="http://yourthoughts.victoriapark.wa.gov.au/mpm/maps/macmillan-precinct-mapping?reporting=true#marker-61937">http://yourthoughts.victoriapark.wa.gov.au/mpm/maps/macmillan-precinct-mapping?reporting=true#marker-61937</a></p>

How about looking at the newly developed South Perth Esplanade precinct with perhaps a continuation of the circular stargate theme (instead of the zoo animals as in South Perth). What historically is Victoria Park known for besides Victorian Cottages, picket fences and a haunted old building? A "juicery" would be a nice addition to the space and a couple of other outlets, perhaps some temporary pop-up style stores on rotation or 4 week on and 2 off. Perhaps a headspace or place to practice mindfulness or EFT so that everyone can grow in harmony with each other and the environment. Also, local manufacturing or upcycling spaces direct to the consumer. Nice shady, covered, alfresco and indoor areas with scope for communication on all levels. Also, I have taken many Easterners down Albany Hwy to get a feel of it - are there any tour operators that go to Vic Park - that'd be a nice way to connect. Oh a tram!!!! ## Macmillan Precinct Concept Plan – draft Community Charter public submission summary

No.	What has been your involvement in the Macmillan Precinct Masterplan project?	Please share your feedback on the draft Community Charter. What did you like about it or what do you think could be improved?	Additional comments
1	Participated in the vision workshop, Completed the online survey	I liked it. I always think shorter is better... But hard to see where you could edit it though! It covers a lot of what was discussed in the workshop I attended and comments I left and saw on the online map survey. It feels representative, nice job.	<i>No Response</i>
2	I have not been involved	The 'charter' is somewhat overblown and full of jargon - a hazard of contracting consultants, I suspect. The most useful paragraph is one of the last: 'Key findings include the Library and Green Space being the most important community assets, a strong desire to see existing community services maintained on site and a recognition of the need for long-term planning to be financially sustainable'. In short, people like the precinct pretty much as it is, esp the green space and trees, and want more of the same, with an upgrade and/or increase of the practical resources provided by community buildings. I found almost all other paragraphs in this report to be too general and too cliché-ridden to usefully inform practical, costed planning for actual, tangible community resources. Or is that still to come? Thank you for the opportunity to comment.	I would would like to see the bowling club relocated to another part of the town and the land freed up for extension of the existing park/trees with a functional corridor through to Albany Highway - and onto which the various community buildings along Kent Street could open, have access, share meeting spaces, and encourage people into the community corridor/park. I also envisage apartments up to say ?five stories over the rec centre building (sale could pay for upgrading the rest of the precinct?)
3	Participated in the vision workshop, Completed the online survey	I generally like that it acknowledged the value of green space and the need for inclusive spaces but not sure that the pictures reflect the diversity. There were very 'white'. Given we need to be inclusive of our indigenous community i would like to see acknowledgement not just in the historical perspective but continuing to include them in achieving the vision and feel welcomed in the space.	Generally happy and hopefully the rest of the collaboration will continue in this direction
4	Completed the online survey	<i>No Response</i>	<i>No Response</i>
5	I have not been involved	<i>No Response</i>	Our main concern is that there is absolutely no decrease in the area of green open space. Over time, buildings will come and go, however, once green open space is gone it will be prohibitively expensive to to get back, ie it is gone for ever. Green open space is vital now, but in 50, 100 years it will be rare around Perth and yet essential for the well being of the people in the community.  We do all our shopping and use the Leisure Life Centre and Library frequently. They are great facilities as they are now. Please do not sacrifice Macmillan Park, or the trees around it, to expand these facilities or any other facilities. If it is believed that they need expanding, then go up, not out. The extra expense to go up, will be nothing compared to the real cost of

			<p>sacrificing yet another green space, as is happening all over the metro area for seeming advantage which at best will only be short term - and is extremely short sighted.</p> <p>Almost nothing else matters in the longer term, (where we should be looking), because it will rectifiable relatively easily. But loss of central green space will never be rectified and the Council will be remembered for their lack of foresight.</p> <p>Thank you;</p>
6	Participated in the vision workshop	<p>It is a comprehensive report on our discussion and gives an accurate account of our workshop. We understand that we have an aging infrastructure that needs to be brought up to standards and a compromise needs to happen, like giving up a little of the green space. Plan to accommodate new infrastructure, that is able to be of mixed use for different groups and activities.</p>	<p>B5. Sustainable and future proof building design. (Build it with strength and durability, not with an end date like the buildings there at the moment as it needs to be replaced because of maintenance issues.)</p>
7	Completed the online survey	<p>I like the intention to keep the green space and that fact that the community has indicated that the library is a key feature. At present the library is under-resourced and under utilised. A more comprehensive and service-oriented library, integrated the the broader MacMillan precinct would be great.</p> <p>I love the community uses of the green space such as the farmer's market and music performances - the new space should augment these uses without losing the green space.</p> <p>I think integrating the space with Albany Highway is paramount - the fenced-off bowls club currently presents a very disruptive barrier between the green space and the highway. I love the idea of improved pedestrian and cycle access, but again this needs to be balanced with the green space.</p> <p>I love the idea of including Aboriginal place and history information in a discover-able manner. I imagine something similar to King's Park where this is done very well. There are groups of Aboriginal people who periodically use the space for socialising - it would be a travesty if they did not feel comfortable or did not use the redeveloped space.</p>	<p>While the adventure playground is nice, as a parent of young children I would like to see more conventional play equipment as well - it gets utilised far more.</p> <p>I love the existing sports equipment such as the basketball ring and table-tennis table. More of this would be great.</p>
