

## Applicant comments on submission summary

No.	Submission received	Applicant response
1	<p>Submission made 24/02/2023 by Your Thoughts.</p> <p><b><u>Support the proposal</u></b></p> <p>We have no objections to the demolition. Please proceed with the project as soon as possible to enable the buildings and park to become safer and more user friendly.</p>	<p>Supportive comments noted.</p>
2	<p>Submission made 25/02/2023 by Your Thoughts.</p> <p><b><u>Support the proposal</u></b></p> <p>This portion of the development plan seems relatively simple and straight forward. Although it is still difficult to envisage the overall plan for the park precinct. That is "The demolition of the place does not affect the site and landscape recommendations established in policy numbers 30-36" Is reasonably still unclear of what will take it's place.</p>	<p>Supportive comments noted.</p> <p>The Edward Millen Landscape Masterplan can be viewed on the Town Website. The project has undergone detailed design resolution however retains the main features captured in the masterplan. This would give the best indication of what is proposed for the site.</p>
3	<p>Submission made 28/02/2023 by Your Thoughts.</p> <p><b><u>Support the proposal</u></b></p> <p>Looking forward to the plans to activate the heritage buildings and renovate the park</p>	<p>Supportive comments noted.</p>
4	<p>Submission made 09/03/2023 by Your Thoughts.</p>	<p>Supportive comments noted. The demolition of this building is required to facilitate the park</p>

	<p><b><u>Support the proposal</u></b></p> <p>Support the proposal as it has no significance to the overall Edward Millen plan</p>	<p>portion of the overall Edward Millen precinct redevelopment.</p>
5	<p>Submission made 17/03/2023 by Email.</p> <p><b><u>Support the proposal</u></b></p> <p>Whilst the Department has in principle no objections to the proposal, the Department requests that a condition of approval be imposed requiring a Construction Management Plan be submitted to, and approved by the Town of Victoria Park to address any potential noise, odour and dust emissions which may impact on the amenity of the adjacent school site and health and safety of the students.</p>	<p>Comment noted.</p>
