Mrs Natalie Adams

3 Presentations

3.1 LPRP Zone 1 - Building design update

Time	20 minute presentation, 20 minute discussion
Presenter	Ryan Dunham (Hames Sharley) and Pierre Quesnel
Attachments	1. 230414 - LPAG Presentation [3.1.1 - 31 pages]

Purpose of the item

To present the revised design of the Perth Football Club and Community facility follow further technical resolution and the feedback received from the previous LPAG meeting, the Town's Design Review Panel, PFC Board and project team, WAFC and Elected Members via a concept forum.

Outcome

Final feedback on the current design from the group before seeking approval from council for lodgment of a Development Application.

Outcome

A sensory room is a space where people can escape noisy or flickering environments that can be overwhelming for them.

There is currently not much information about the specifics of these rooms as they are a new initiative.

A grease trap is required for commercial kitchens and will be installed to prevent unpleasant smells.

The radio rooms are exclusively for radio, while the media rooms are for TV.

There will be a universally accessible toilet for patrons and a staff toilet.

Patrons can use toilets at the oval level or the Goddard Street level.

A locked toilet door can prevent access to the community space, but more toilets will be added on the lower level to accommodate larger crowds.

Portable toilets may be added for bigger events.

The idea of bike cages will be considered by the Town of Victoria Park.

The club will maintain their current number of car bays, and they will be marked for PFC during certain times.

The building design is being adjusted to work within the budget.

A pull-out stage can be considered as part of a wall for added flexibility. Note that a portable stage may provide greater flexibility.

A pull-out table and drawers can be added to the foyer instead of a trestle table.

Double glazing is being evaluated for sustainability and cost.

The solid wall of the community centre will remain, but the window can be adjusted to create more interest.

The Memorabilia room can be accommodated in a full-height glass wall or a storage room.

Universal access will be provided for outdoor seating.

The seating for the president's area will be reviewed to ensure equality.

There will be cover for outdoor seating, but patrons may still be exposed to the elements.

Actions

Who will do the rubbish collection service for this facility?
