Policy objective:

To provide a clear, consistent process for the assessment of applications for fireworks display and to outline the criteria by which the Town will assess proposals for the use of fireworks.

Policy scope:

The Department of Mines, Industry Regulation and Safety (DMIRS) is responsible for the approval of fireworks displays. Prior to lodging an application with DMIRS, a fireworks contractor must lodge a Fireworks Event Notice with the WA Police, the Department of Fire and Emergency Services (DFES) and the relevant local government. The Town's role is to indicate support or opposition to the fireworks event to assist DMIRS in its decision making process.

This policy applies to all Fireworks Event Notice application for fireworks displays proposed within the Town.

The Town does not assess fireworks applications for compliance with the requirements of the relevant legislation for the use and storage of fireworks. This is the sole responsibility of the Licensed Fireworks contractor and DMIRS under the *Dangerous Goods Safety Act 2004*.

The Town's function in assessing a Fireworks Event Notice is limited to community impacts associated with noise from fireworks display, proximity to residences and environmental impacts.

Policy definitions:

Fireworks has the meaning given to the term in the *Dangerous Goods Safety (Explosives) Regulations 2007* being:

"an article or substance containing one or more explosives with or without other substances, that is designed to entertain people by producing light, sound, gas, smoke, or a combination of them, by means of or a combination of them, by means of an exothermic chemical reaction that does not rely on oxygen from external sources to sustain the reaction, but not a model rocket motor".

Fireworks event has the meaning given to that term in regulation 136 of the *Dangerous Goods Safety (Explosives) Regulations 2007* being:

"an event or show that involves the use of a firework outdoors to entertain one or more people, whether at a public or private event or show".

For the purposes of this policy, fireworks displays that occur over a number of days/times at one venue for the same purpose are regarded as one event.

Fireworks Event Notice refers to the relevant DMIRS form or notice submitted to the Town for a fireworks event. The Notice is a pre-requisite for a Fireworks Event Permit, issued by the Department.

Licensed fireworks contractor is the contractor licensed by DMIRS as stipulated in the Fireworks Event Notice.

Private events means an event that is private (normally by invitation) and not open to the public such as private parties, weddings, etc; held at function centres (or similar venues).

Community/Public Events means an event open to the community or the public, whether ticketed or not (i.e. shows, fairs, fetes, concerts etc).
