4 Items for discussion

4.1.1Urban Forest Project Proposal - ToVP Administration Building

Reporting officer	Pierre Quesnel			
Attachments	1.	Urban forest project proposal - To VP Administration Building [4.1.1.1 - 4		
		pages]		

Purpose of the item

UFS Implementation project proposals are received from the community and Town staff via online form. The proposals are collated and presented to the UFS Implementation Working Group who will provide advice and recommendations to inform prioritisation and implementation of UFS implementation projects.

Outcome

Following open discussion about the proposal amongst the group and Town subject matter experts' recommendations, advice and additional opportunities and recorded in the meeting notes. This will assist Town staff in the prioritisation of projects. It will also assist in understanding the likely community impacts and sentiment which will influence the manner of project delivery.

Discussion points

The UFSIWG discuss the Urban Forest Project Proposal – ToVP Admin Building.

Outcome

Project costs

- Due to the location within hardstand this could be a comparatively costly planting exercise.
- It was identified that a further modifications to the pavement surfaces should be included in any potential project proposal. Of particular note was the fact that the only raised kerb in the area was around the tree pits preventing water entering the root zone.
- Exploration was proposed for potential combination of this project parking and pavement alterations.

Community support

• It was stated that the Town and the community have been recognised as leading the way in terms of its community led Urban Forest and the civic building should reflect this community pride.

Place impact

- Medium sized natives are proposed for the locations to provide canopy and improve the amenity of the entrance to the Town's main civic building.
- The trees chosen will make a positive statement

Next steps

The Officers agreed with comments that there is a current lack of detail in the proposal and it ways agreed that a plan with greater detail including proposed species will be created and presented at the next working group meeting.

Further information

See attached – Urban Forest Project Proposal – ToVP Administration Building

Actions

• Pierre Quesnel and Penny Fletcher to liaise with engineering to enlarge tree wells and investigate a list of native trees that can be planted in the proposed planting locations.

5 General business

Significant Tree List:

- The UFSIWG are provided with background information on the history of the development of a significant tree register at the Town that was first adopted in 2001.
- Discussion was had as to the recommended path forward for updating the significant tree register and the available mechanisms to provide protection to the trees on this list.
- It has been proposed by Town officers that a significant tree study is required before any protection mechanisms be developed.
- It was agreed that an outline of a brief for this significant tree study would be presented at the next meeting.
- Advocacy and discussions with WALGA and other local governments are encouraged during this
 process to generate support for the initiative and understand the broader context in which is will be
 placed.

Actions

 Pierre to provide an update on the process for reclaiming cross overs for tree planting across the town

6 Actions from previous meetings

Action	Responsible Officer	Status / Comments	Closed Date
Pierre and Penny Fletcher to liaise with engineering to enlarge tree wells and investigate a list of native trees that can be planted in the proposed planting locations.	PQ and PF		
Pierre to provide an update on the process for reclaiming cross overs for tree planting across the town	PQ
