

Town of Victoria Park

Suggested Tree Species List

The following list has been developed to assist developers, builders and homeowners with selection of trees that may be suitable for planting within private property, in accordance with the Town of Victoria Park Local Planning Policy 39 Tree Planting and Retention. This list does not form part of the Policy.

Information is of a general nature and tree sizes will vary according to individual site conditions. Developers, builders and homeowners are responsible for researching and selecting species that are suited to their specific requirements and site conditions.
